April 24, 2020

Dear students,

YAMASHITA Munetoshi
Vice President

【Request】
Regarding suspension of activities in entertainment districts during the night

As you know, Saga prefecture has released the emergency measures in response to the announcement of emergency declaration throughout Japan.

In such a situation, clusters of COVID-19 occurred within Saga prefecture. The situation in Saga prefecture is obviously getting worse. Most of the clusters particularly occurred in entertainment districts at night. We request you to stop any activities in entertainment districts during the night as the risk of “community transmission” is considered extremely high.

Based on the current situation, please understand that to ask you to stop going to the entertainment district is a necessary request in order to protect yourself from corona virus and to reduce the risk of spreading the infection.

※Not limited to the above, the consultation counter is available for students who have difficulty of living because the part-time job is canceled.
